ABOUT ALDER

An unexpected crisis can be a testing time for CEOs and senior management in healthcare. The communication demands are intense, and decision-making has to take place at high speed and under great scrutiny. Alder specialises in supporting clients at such times, with a combination of PR support, strategic counsel, and stakeholder management advice.

Alder / 'ɔːldə / noun

The alder tree has long been a symbol of protection, stability and restoration. Its wood was historically employed for the building of wharves and flood defences. Even after centuries under water, alder doesn't rot, but is instead strengthened by every breaking wave.

With many years' experience and working with the country's leading healthcare lawyers, we advise on how to handle a whole range of issues that can arise from a sudden incident, legal dispute or unexpected communications challenge.

“You’ve provided great advice, you’re always responsive and have felt like an extension to our team – and genuinely a pleasure to work with, especially during some really challenging times”

Building empathy capital

Improving your reputation with the public and your stakeholders in advance of any crisis will help get you through even the most challenging scenario.

Hostile media training

It's one thing being a confident speaker; it's another performing under the pressure of responding to a negative story with a dogged reporter in front of a rolling camera.

Increasingly, crises either start on or are sustained by social media activity, making your online profile and response strategy all the more important.
